

# *Guides you through the process of setting up your business as an LLC, without paying expensive attorneys*

The limited liability company is a hybrid type of business structure. It contains elements of both a traditional partnership and a corporation. The limited liability company form of business structure is relatively new. Only in the last few years has it become available as a form of business in all 50 states and Washington D.C. Its uniqueness is that it offers the limited personal liability of a corporation and the tax benefits of a partnership.
