Reference: Miracure J9326D ,

Dear Shaun ,

This is a response to your request regarding the lead/heavy metals content of our product Miracure J9326D .

An elemental analysis was conducted on the above mentioned product according to the guidelines as found in ASTM Standard F963.65 . Based on the results of this analysis we can now make the following statement :

Miracure J9326D is in full compliance with “Consumer Product Safety Commission Part 1303 , regarding the ban of lead containing paint and certain products bearing lead containing paint “ .

We can further state that our elemental analysis exhibited a NON-DETECTABLE reading for lead at a threshold level of 2.0 ppm .

I trust that this information will assist you in the determination of the suitability of our product for your application . If you require any further information do not hesitate to contact us at anytime .

Yours truly,
